In each photograph, I celebrate the adventurous lifestyle that is my own passion. It's not just about seeking adventure; it's about embodying it.

FREEERIDE

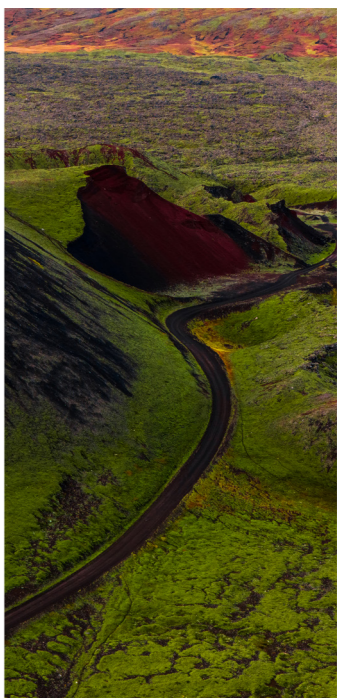

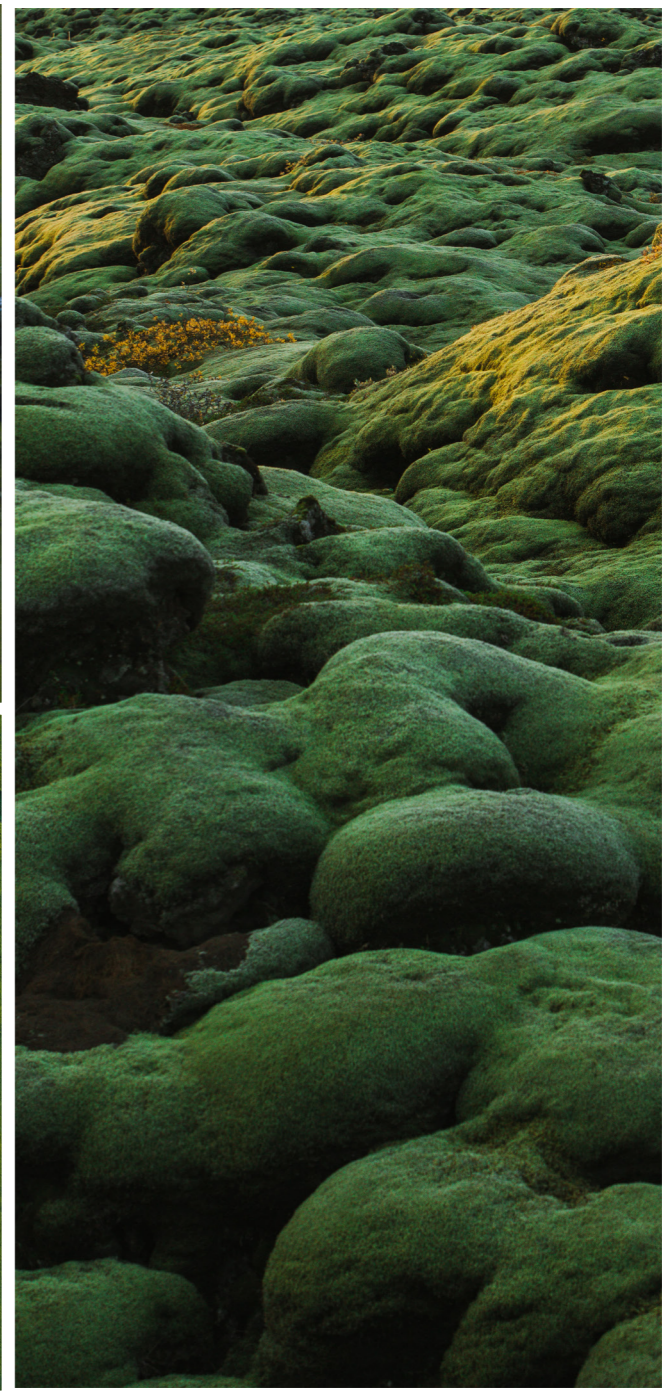

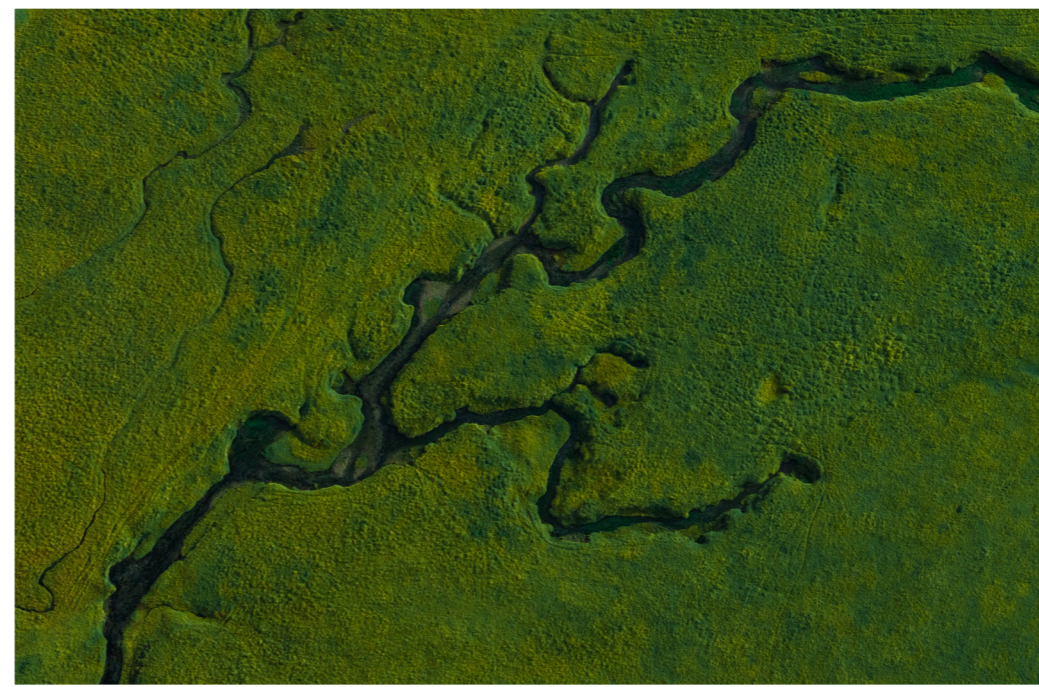

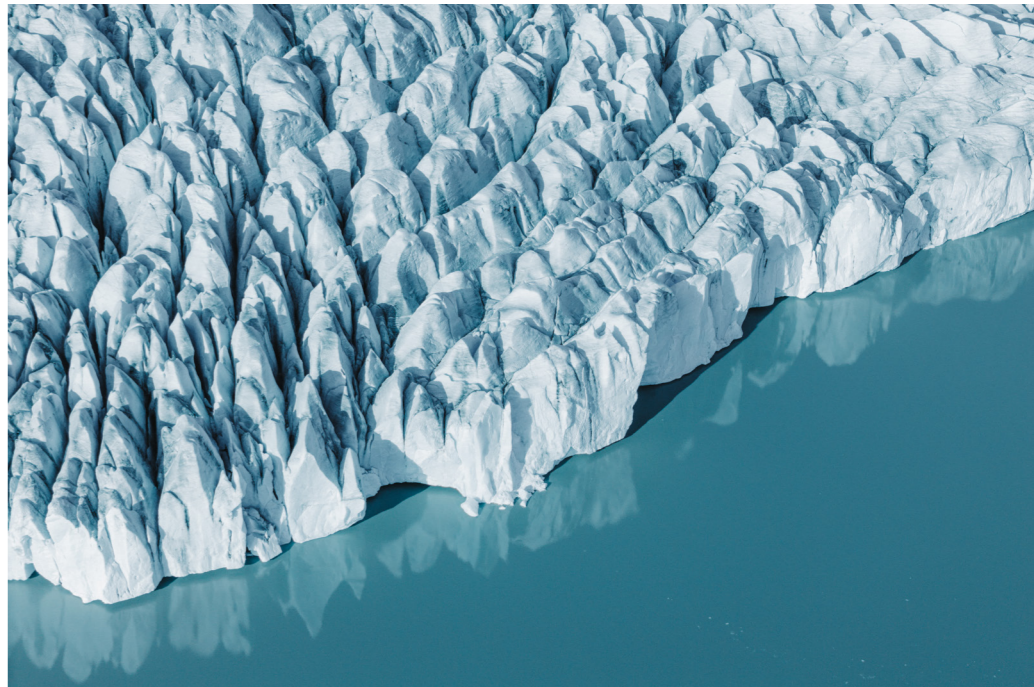

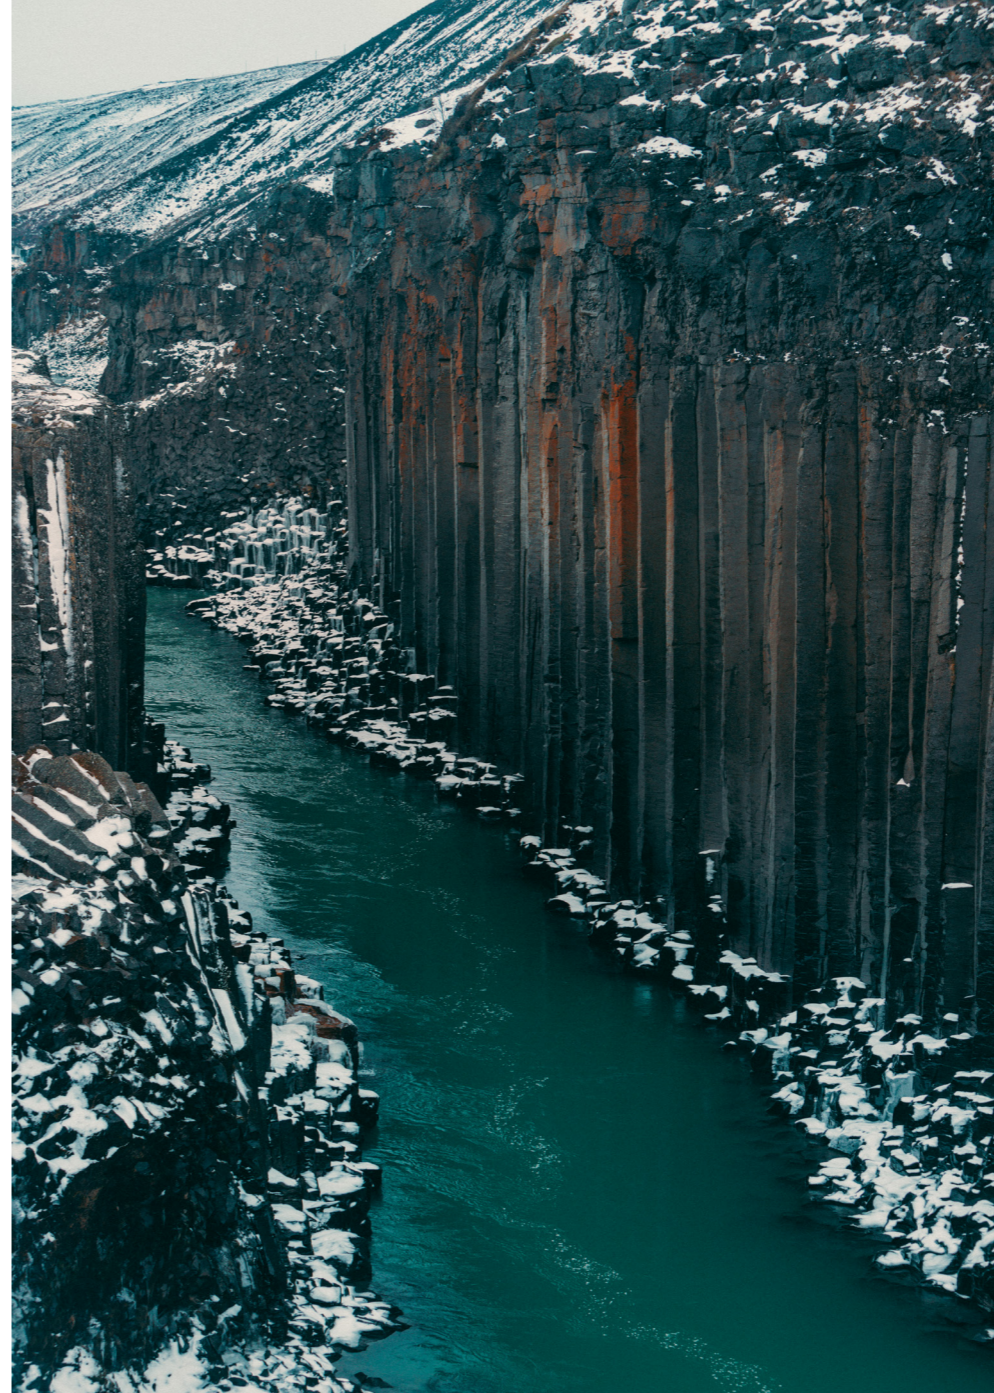

ICELAND'S UNTAMED ELEGANCE

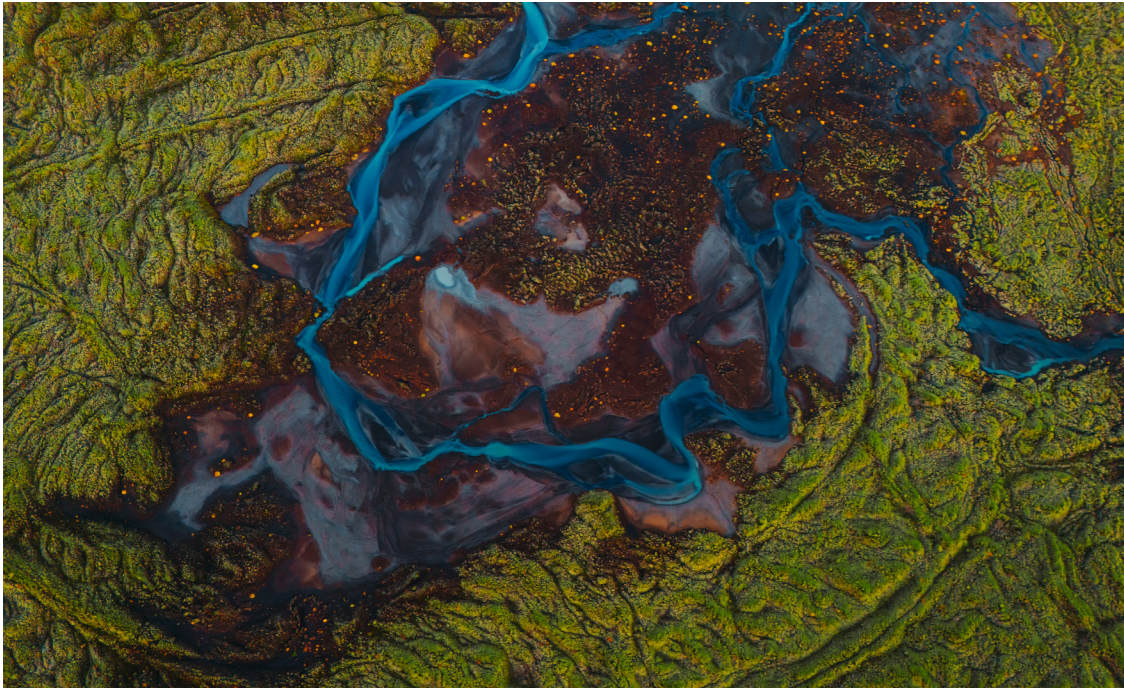

Step into the untouched realm of Iceland through my lens.

From the mystic allure of the Northern Lights dancing in the night sky to the serene solitude of crystal-clear glacial lagoons, my photographs encapsulate the raw, untouched beauty of Iceland.

Each frame tells a story of the land of fire and ice, where minimalism reigns, and nature's grandeur speaks for itself.

FILM EXPLORER SOUL

VERTIC.MEDIA/EXPLORERSOUL

Explorer Soul is a personal project that I started right after the 2020 pandemic lockdown.

By telling the story of 3 different persons with sport as the common thread, we were filming for 365 days through all the seasons in the mountainous region of La Cerdanya, Spain.

A documentary film to give value to the amazing places close to where we live and that go unnoticed in our daily lives, overshadowed by routine, and which shined again due to all the restrictions on international travel when everyone set out to rediscover local gems.

From the most extreme night mountain skiing to road cycling through the most remote valleys without forgetting to climb some of the most

emblematic walls in the area.

The three characters are true explorers and the trip will be full of guaranteed adventures.
